

Part Number: 240-124

Description: Analog Discovery 2 Maker Bundle

Start learning and experimenting with electronics with the Analog Discovery 2. The chipKIT starter kit provides an opportunity to start communicating with displays, digital logic ICs, motors, sensors, and analog circuits. With the included MTE cables and mini grabber clips, experimentation isn't limited by connectivity options.

Bundle Includes:

1. Project Starter Kit
2. 1-pin MTE Cable (5 pack)
3. Mini Grabber Test Clips (6 pack)
4. Analog Discovery 2 and the following:
  - a. One regular sized project box (without sticker sheet)
  - b. One USB A to micro B programming cable
  - c. One 2x15 flywire signal cable assembly
  - d. One 5-pack of 6-pin male headers
  - e. One ferrite cable snap-on
