Gas Soldering Iron Kit  
Pyropen Butane Gas Powered Soldering Kit

Powered by Butane gas, the Pyropens offer soldering iron, hot air blow and blow torch options. They have a short heat up time and are refilled in seconds from a refill cylinder. A sight glass shows the level of gas in the reservoir. The temperature variation is obtained by increasing respectively decreasing the gas flow. All Pyropen soldering irons need very clean refill (accessory) for precise temperature regulation.

Packaging information

<b>Shelf pack size (Units per shelf pack)</b>	Single
<b>Set</b>	Yes

Technical Data

<b>Color</b>	Blue
<b>Material delivered tip</b>	Iron plated
<b>Usable Tip family</b>	60-x-series
<b>Tip grounding</b>	No grounding
<b>Target application</b>	Electronic
<b>Degree of Freedom</b>	Cordless
<b>Size</b>	Small
<b>On/off indicator</b>	No
<b>Build in Light</b>	No
